

Fairview

Let's grab a quick pulse and continue our conversation

Take a quick pulse survey to help us better support you during these challenging times.

A record number of you responded to the Engagement Survey last winter but we're in a different place than our last survey so we'd like to check in with four short questions.

You can take the confidential survey two ways:

- Log in to your email, either on your mobile device or on your desktop computer, and find the email with the subject line "Fairview's 2021 Pulse Survey". Your personalized survey link will be in your email.
- You can also access your survey on your phone here using this QR code. To log in, you'll need your employee ID number. Find your employee ID number on your paystub or ask your leader for help in getting that number.
